Boulders

Boulders offer a natural alternative for monuments and signs. Stones vary in size and color, and may be presented with flattened areas, bronze markers or plaques, or polished surfaces. In addition, boulders may be cut, and holes may be cored to allow for placement of cremains, urns or time capsules.

Vases are available in Bronze and Aluminum. You will find that the vase compliments granite beautifully and is a very meaningful and practical addition to your memorial.

D5458

D5465

D5464

D4157

The "Contempra" is permanently attached to the memorial by drilling four 1/4" dia. holes to a depth of 1", filling the holes with any good memorial epoxy, running a bead of epoxy around the underside of the rim and setting the entire assembly in place.

The plastic outer casing, which has a bottom opening to allow proper drainage, is set into the pre-drilled vase hole before epoxying the vase assembly into place.

The "Contempra" Vase D5447

To position vase, merely lift (1) and rotate (2) so that the locking lugs rest on the rim in either the demi-vase or full upright position.

The floral arranger (frog) may be removed by twisting to align the locking detents, which allows the vase liner to be removed.

The "Contempra" in lowered position

in demi-vase position

and full upright
